

CYBER SECURITY INTERNSHIP

Task 1: Scan Your Local Network for Open Ports

- Objective: Learn to discover open ports on devices in your local network to understand network exposure.
- Tools: Nmap (free), Wireshark (optional)

Hints/Mini Guide:

- 1. Install Nmap from official website.
- 2. Find your local IP range (e.g., 192.168.1.0/24).
- 3. Run: nmap -sS 192.168.1.0/24 to perform TCP SYN scan.
- 4. Note down IP addresses and open ports found.
- 5. Optionally analyze packet capture with Wireshark.
- 6. Research common services running on those ports.
- 7. Identify potential security risks from open ports.
- 8. Save scan results as a text or HTML file.

Outcome: Basic network reconnaissance skills; understanding network service exposure.

Interview Questions:

- 1. What is an open port?
- 2. How does Nmap perform a TCP SYN scan?
- 3. What risks are associated with open ports?
- 4. Explain the difference between TCP and UDP scanning.
- 5. How can open ports be secured?
- 6. What is a firewall's role regarding ports?
- 7. What is a port scan and why do attackers perform it?
- 8. How does Wireshark complement port scanning?

Key Concepts: Port scanning, TCP SYN scan, IP ranges, network reconnaissance, open ports, network security basics.

Task Submission Guidelines

• Time Window:

You can complete the task anytime between 10:00 AM to 10:00 PM on the given day. Submission link closes at 10:00 PM

• Self-Research Allowed:

You are free to explore, Google, or refer to tutorials to understand concepts and complete the task effectively.

• X Debug Yourself:

Try to resolve all errors by yourself. This helps you learn problem-solving and ensures you don't face the same issues in future tasks.

• No Paid Tools:

If the task involves any paid software/tools, do not purchase anything. Just learn the process or find free alternatives.

• CitHub Submission:

Create a new GitHub repository for each task.

Add everything you used for the task — code, datasets, screenshots (if any), and a **short README.md** explaining what you did.
